THPC Helps Attract Blood Donors

Vientiane, February 26, 2015

The Theun-Hinboun Power Company showed its support for public blood donation, handing over 300 T-shirts to the Lao Red Cross in Vientiane in late February. The T-shirts will be given to blood donors to thank them for their valuable contributions and to encourage others to give blood.

The Khammouane branch of the Red Cross requested the shirts after helping THPC organise a blood donation session at the company’s hydropower plant in November last year. Company staff, senior students from the THPC school and members of the public came to the plant in Khounkham district to give blood.

Dr Sing Menorath, the Vice-President of the Lao Red Cross, thanked THPC for its support and said he hoped the company would continue building links with the Red Cross, especially in its mission to increase blood donation in the country.

Note to Editors: THPC, the Theun-Hinboun Power Company, owns and operates a 500-MW hydropower plant in Khammouane and Bolikhamxay provinces of the Lao PDR. The company was established in 1994 as the first independent power producer in Laos and is 60% owned by EDL-Generation of Laos, with GMS International and SN Power each holding a 20% stake. THPC’s 360 personnel, 99% of whom are Lao, work in power production and in wide-ranging social and environmental programs across five districts.
